

Packaging Line Marking and Coding. Simplified.

All manufacturers will sell you a controller to drive their equipment, but no one delivers adaptable, flexible marking control like Matthews' MPERIA® platform.

Take control of disparate marking equipment and unleash production line productivity

MPERIA is adaptable; do what you need to do, when you need to do it. Deploy a controller at each station or centralize for all marking, MPERIA® does it. Manually switch messaging or fully automate, MPERIA® handles it. MPERIA® lets you control your packaging line your way, simply and efficiently. You aren't locked into one type of packaging line setup with MPERIA®.

- + Control existing marking equipment
- + Peripheral control (vision systems, scales, etc.)
- + Easily connect to your back-end business system
- + Efficient customization with open-source, flexible architecture
- + Simple operation your team will quickly learn and easily utilize

Mastermind your production lines.

Keep production staff focused on their objectives. MPERIA® gives you:

- + Efficiency: primary, secondary, tertiary marking control
- + Productivity: centralized management with remote capability
- + Simplicity: a single system interface for easy operator training

Cut your downtime.

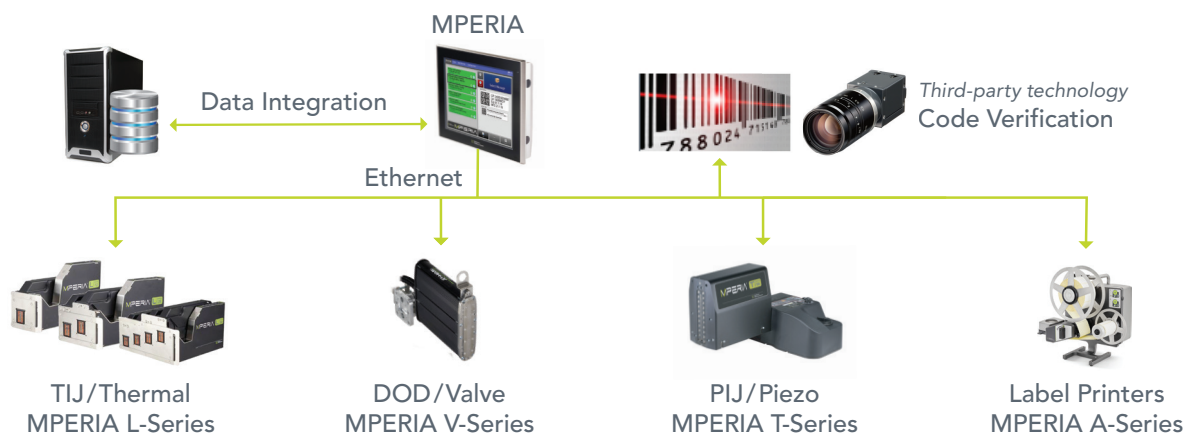

Remove a bottleneck from your production line packaging:

- + Automated message and code changeovers
- + Synchronization with your ERP/WMS
- + Marking control from product to pallet

Simplify your setup.

Centralize control or deploy per station.

Scale your operations when you're ready.

Be ready for what's next. Here's how.

Integrate your enterprise.

MPERIA® integrates in an elegant and powerful way that gives you:

- + Variable data synchronization updating all the printheads on your line
- + Native security using the network security you already deploy
- + Custom integration possibilities with open architecture

Ditch the middleware.

MPERIA® software is the platform that gives you:

- + Security settings and access by user level
- + Native network infrastructure support requiring no additional server hardware
- + Plugin architecture requiring no third-party software

Stop waiting. Start updating. Modernizing your packaging line marking and coding is no easy feat and we get that. Only MPERIA® fits into your line as you need, not the other way around. Centralize and automate your package marking and take your production operation to the next level.

About Us

We are your dedicated marking and coding partner.

From out-of-the-box products to custom engineered systems, we solve your industrial or consumer packaged goods challenges.

Expertise Applied

We make printing the most reliable step in your production line by leading in three critical areas:

1 Innovation.

We maintain a technical advantage over competitors, investing in the continuous improvement of our marking solutions.

2 Flexibility.

No matter what you're trying to mark, no matter how your production lines are set up, we'll make it happen.

3 Know-how.

We understand your industry and speak your language, building solutions that fit your world.
